## WORK IN PROGRESS - REGULARLY UPDATED

"Where have all the young men gone":

### The 450 Austro-Hungarian Soldiers buried in the Crypt of Santa Maria dell' Anima in Rome

#### Heads of Project

Tamara Scheer, University of Vienna/Pontifical Institute Santa Maria dell'Anima, Rome  
Nikolaus Rottenberger, Österreichisches Bundesministerium für Landesverteidigung

This file is mainly dedicated to the status of our ongoing research into the identity of the 450 Austro-Hungarian soldiers of the First World War who are buried in the crypt of Santa Maria dell'Anima in Rome. The project began in 2021, and since then we have managed to identify a large number of these men (or at least find some personal details). Our first printed result was a booklet published at the end of 2023. It is dedicated to the history of the burial site and also shows the soldiers' war and captivity experiences as well as some biographies of the men buried.

**The booklet can be read full text for free:**

The screenshot shows the homepage of the Austrian Federal Ministry of Defense (BMLV.GV.AU). The header features a large image of a classical building, likely the Ministry's headquarters. The top navigation bar includes links for 'BUNDESHEER.AT', 'KARRIERE.BUNDESHEER.AT', and 'BMLV.GV.AT'. On the right side of the header is a search bar labeled 'Suchbegriff' with a magnifying glass icon. Below the header, there is a horizontal menu bar with links for 'AKTUELL', 'MINISTERIUM', 'DIE MINISTERIN', 'VERTEIDIGUNGSPOLITIK' (which is highlighted in red), 'SPORT', 'MILIZ', 'MEDIENARCHIV', and 'SERVICE'. Under the 'VERTEIDIGUNGSPOLITIK' menu, there is a link to 'Startseite - Sicherheitspolitik - Wissenschaftliche Publikationen - Where have all the young men gone? - Where have all the young men gone?'. The main content area displays the title 'Where have all the young men gone?' in bold, followed by the text 'erschienen in der **Publikation** "Where have all the young men gone?" (ISBN: 978-3-902275-57-8) - 29. November 2023'. Below this, it lists the author(s) as 'Autor(en): Tamara Scheer, Nikolaus Rottenberger' and the theme as 'Themen: Militärgeschichte'. At the bottom of the content area is a link 'Vollständiger Beitrag als PDF: 90 Seiten (2.43 MB)'.

The second part of our projects begins in 2024 and is dedicated to the creation of a virtual memorial book. Following the example of the life stories of these men already published in the above-mentioned booklet, we want to collect further information on even more soldiers, with a particular interest in how the families often desperately tried to find out what happened to them.

DEUTSCH

## Was haben Chosbel Adler, Friedrich Dorfmayr, István Fekete, GavorDujaković, Marton Hornyak, MijatKuzma und Karol Meřičkagemeinsam?

Sie haben vieles gemeinsam! Sie alle stammten aus Orten, die heute mehrere europäische Staaten umfassen, während des Ersten Weltkriegs aber noch Teil der Habsburgermonarchie waren. Alle kämpften in den Uniformen Österreich-Ungarns an der Italienfront, kamen in Kriegsgefangenschaft und kehrten nicht mehr nach Hause zurück.

In der Krypta der Kirche Santa Maria dell'Anima in Rom sind insgesamt 450 Soldaten bestattet, darunter die oben Genannten. Es handelt sich aber nicht nur um Soldaten römisch-katholischen Glaubens. Identifiziert ist bislang nur ein Drittel von ihnen. Diese zum größten Teil noch unbekannten Soldaten stammten aus allen Teilen der Habsburgermonarchie, von Galizien, Bukowina und Ungarn im Osten bis Vorarlberg und Tirol im Westen, von Böhmen und Schlesien im Norden bis Bosnien-Herzegowina und Dalmatien im Süden.

Anlässlich des 85-jährigen Bestehens dieser Krypta arbeiten wir die Geschichte dieser Soldaten auf, erforschen ihre Fronterfahrung, ihr Leben in den Gefangenengläsern in Mittelitalien und Sardinien. Daraus soll ein Gedenkbuch entstehen, mit dem diesen unbekannten Soldaten wieder ein Gesicht gegeben werden soll.

Wir suchen daher einerseits Nachfahren, die auf der Suche sind nach dem Verbleib ihrer Vorfahren bzw. um Hilfe die restlichen Namen zu identifizieren. Bitte helfen Sie uns, indem sie diese Liste bzw. den Link teilen und weiterschicken!

Wir, die Projektleiter Priv. Doz. Dr. Tamara Scheer (Universität Wien) und Oberst Mag. Nikolaus Rottenberger (Österreichischer Verteidigungsattaché in Rom) haben eine Namensliste nach bisherigem Wissensstand ins Internet gestellt - diese wird laufend ergänzt und korrigiert.

ČESKY

### Co majíspolečného Chosbel Adler, Friedrich Dorfmayr, István Fekete, Gavor Dujakovič, Marton Hornyak, Mijat Kuzma a Karol Měřička?

Majíspolečnéhomnoho! Všichni pocházeli z míst, jež se dnes nacházejí v různých evropských státech. Během první světové války však byly všechny tyto země součástí habsburské monarchie a všechni z nich měnili muži bojovali v rakousko-uherském uniformě na frontě, kde všechni padli do zajetí, z něhož se domů nikdy nevrátili. V kryptě kostela Santa Maria dell' Anima v Římě jsou dnes pohřbeny celkem 450 vojáků a právě oni jsou mezi nimi. Doposud se jich podařilo identifikovat sotva třetinu. Tito muži, z velké většiny dodnes neznámí, pocházejí zejména z Uherska, od Haliče, Bukoviny a Uher, navíc chodě po Vorarlbersku a Tyrolsku, konazápadě, od Čech a Slezska na severu po Bosnu-Hercegovinu a Dalmácií na jihu. U příležitosti této osmdesátého výročí založení krypty pracujeme na rekonstrukci minulostí těchto známých, aby se cílem přiblížit a pochopit jejich životní historii z první linie z života v zajateckých táborech v Itálii a na Sardinii. Výsledkem bude například kniha, která zapomenutým vojákům vrátí jejich historii. Naším konečným cílem je jednotlivě výkazy identifikovat a vypárat potomky, kteří dodnes netuší, kde jsou jejich předkové pochováni. Prosíme Vás proto o pomoc a sdílení toho, co znáte, resp. odkazů na ně.

Coby hlavní vedoucí projektu jsme my, doc. Dr. Tamara Scheer (Universität Wien) a plk. Nik Rottenberger (rakouský vojenský yataš v Římě), nazákladěna sich prvních poznatků užestavili jmena a umístili jen na webu. Tentotéž seznam je neustále aktualizován a doplňován.

Što imaju z jedničkoga Chosbel Adler, Friedrich Dorfmayr, István Fekete, Gavor Dujaković, Marton Hornyak, Mijat Kuzma i Karol Meřička?

Imaju puno toga z jedničkoga! Svidolaze iz mesta, koja se danas nalaze u nekoliko europskih država, ali su tijekom Prvog svjetskog rata bili u Habsburškoj kraljevini. Svisuratovali su u uniformi Austro-Ugarske vojske na talijanskoj bojišnici, dospjeli su u ratno zapovjedništvo i nisu se vratile doma. U kripti crkve Santa Maria dell'Anima u Rimu pokopano je ukupno 450 vojnika, uključujući i pogorene vavedene. Međuukopanimaima i onih koji su rimokatolički vjeroispovijestni. Ovi vojnici, odkojih je većinu u vrijeku nepoznata, potječu iz raznih dijelova Habsburškoj kraljevini. Od Galicije, Bukovine i Mađarske na istoku, do Vorarlberga i Tirola na zapadu, od Češke i Šleske na severu, do Bosne i Hercegovine i Dalmacije na jugu.

Povodom 85. obljetnice ove kripte, obrađujemo povijest ovih vojnika, istražujemo njihovu skutu, vasabojništvo, njihov život u zarobljeničkim logorima u srednjoj Italiji i na Sardiniji. Izvoga istraživanje trebala bi nastati pomen knjigakoja bi ovim nepoznatim vojnicima trebalavratiti identitet.

Zbog toga tražimo sa jedne strane njihove potomke, kojima tražimo posljednjim počivalištem svojih predaka, odnosno pomoći pri identifikaciji preostalih imena. Molimo Vas zapomoći prisastavljanju ovog popisa, odnosno dajte ovu veznicu i širete je dalje.

Mi, voditeljica projekta dr.sc. Tamara Scheer (Sveučilište u Beču) i pukovnik Nikolaus Rottenberger (austrijski vojnički general u Rimu) postavili smo na internet listu trenutno poznatih imena – koju ćemo uključiti u žuriramo i ispravljamo.

ITALIANO

### Cos' hanno in comune Chosbel Adler, Friedrich Dorfmayr, István Fekete, Gavor Dujaković, Marton Hornyak, Mijat Kuzma e Karol Meřička?

Hanno molto in comune! Provenivano tutti da luoghi che oggi sono in diversi Stati europei, ma che durante la Prima guerra mondiale facevano ancora parte della monarchia asburgica. Tutti hanno combattuto sul fronte italiano con le uniformi dell'Austria-Ungheria, divennero prigionieri di guerra e non tornarono più a casa.

Nella cripta della chiesa di Santa Maria dell'Anima a Roma, sono sepolti in totale 450 soldati, tra cui i suddetti. Tuttavia ad oggi solo un terzo degli stessi è stato identificato. Questi soldati, la maggior parte dei quali sono ancora ignoti, provenivano da tutte le parti della monarchia asburgica, dalla Galizia, Bucovina e Ungheria a est fino a Vorarlberg e Tirolo a ovest, dalla Boemia e dalla Slesia a nord fino alla Bosnia-Erzegovina e alla Dalmazia a sud.

In occasione del 85° anniversario dell'esistenza di questa cripta, lavoriamo per ricostruire la storia di questi soldati, per studiare la loro esperienza in prima linea, la loro vita nei campi di prigionia dell'Italia centrale e della Sardegna. Da questa ricerca verrà prodotto un libro commemorativo, che darà di nuovo un volto a questi soldati sconosciuti. Da una parte, stiamo rintracciando i discendenti che ancora non conoscono il luogo in cui si trovano i loro antenati, dall'altra tentiamo di identificare i nomi dei soldati ignoti. Vi chiediamo di aiutarci condividendo e inoltrando questa lista, rispettivamente il link e di inviarlo!

Noi, i responsabili del progetto Priv. Doz. Dr. Tamara Scheer (Università di Vienna) Nikolaus Rottenberger (addetto militare austriaco a Roma), abbiamo compilato e pubblicato su Internet una lista di nomi una lista di nomi secondo lo stato attuale delle nostre conoscenze. Questa lista viene costantemente aggiornata e corretta.

## MAGYAR

Mi közös Chosbel Adlerban, Friedrich Dorfmayrban, Fekete Istvánban, Gavor Dujakovićban, Marton Hornyakban, Mijat Kuzmában és Karol Meříkban?

Nagyonok! Mindannyiukszülőhelye ma mármáseurópai államhoztartozik, de az 1914-1918-as háború alatt még a Habsburg monarchia részétképezte. Mindannyian az olasz fronton harcoltak Ausztria-Magyarország egységei ruhájában, hadifogságba estek német térikhaza.

Rómában a Santa Maria dell'Anima templomkriptájában összesen 450 katonanyugszik, köztük a máremlítettszemélyek is. A mai napig csak harmadik kategória volt a habsburgi katonák – jelentős részük máig ismeretlen – a Habsburg monarchia különféle török elől került településekben, keleten Galíciából, Bukovinából és Magyarországról, nyugaton Voralbergból és Nyugat-Tirolból, északon Csehországból és Sziléziából, délen pedig Bosznia-Hercegovinából és Dalmáciából.

A kriptalétesítésének 85. évfordulója alkalmából próbáljuk ki a konstrukciókat, hogy megismerhessük tapasztalataikat a fronton, életüket közép-Olaszország és Szardínia hadifogolytáboraiban. Kutatásunk célja egyemlékkötetírása, amely visszaadná ezeknek a katonákra a katonának az identitását. Egyrészt keressük a leszármazottakat, akik a kormánytól nem tudtak járhol nyugszanakőseik, másrészt próbáljuk a katonák személyes emlékeket. Kérjük segítségüket, hogy osszák meg ezt a listát, illetve a hozzá tartozó linket.

Mi, a projektfelelősei, Dr. Tamara Scheer egyetemi magántanár (Bécsi Egyetem), illetve Nikolaus Rottenberger (római osztrák véderő attasé) összeállítottunk egy listát az aktuális ismereteinkkel a lapján. Ezrendszeresen javítjuk és frissítjük.

**Co mają Chosbel Adler, Friedrich Dorfmayr, István Fekete, Gavor Dujaković, Marton Hornyak, Mijat Kuzma i Karol Meřička zesobą wspólnego?**

Mnóstwo! Wszyscy oni pochodzili z terenów, które redziły rządy w różnych europejskich monarchiach Habsburgów. Oni wszyscy walczyli w mundurach Austro-Węgier na froncie włoskim, zostali jeńcami wojennymi i nigdy nie powrócili do domu.

W krypcie kościoła Santa Maria dell'Anima w Rzymie pochowanych jest w sumie 450 żołnierzy, w tym wiele wymienionych. Jednakże tylko jedna trzecia z nich pozostała do tej pory zidentyfikowana. Ci żołnierze, z których większość jest nadal nieznana, pochodzą z różnych części Monarchii Habsburskiej, z Galicji, Bukowiny i Węgier, nawodnie do Vorarlbergu i Tyrolu, a następnie do Czech i Śląska, a następnie do Bośni i Hercegowiny oraz Dalmacji na południu.

Z okazji 85-lecia istnienia tej krypty, zajmujemy się historią tych żołnierzy, aby poznaczyć ich doświadczenie na linii frontu, ich życie w obozach jenieckich w środkowych Włoszech i na Sardynii. Z naszej pracy powstanie Księga pamiatkowa, która przywróciła im pamięć i opowie historię tych nieznanych żołnierzy.

Zwracam się więc do potomków, którzy poszukują informacji na temat swoich przodków lub mogą pomóc w identyfikacji pozostałych nazwisk. Prosimy, pomóżcie nam, dzieląc się i przesyłając dalej listę lub link!

My, kierownicy projektu dr hab. Tamara Scheer (Uniwersytet Wiedeński) oraz Nikolaus Rottenberger (Austriacki Attache Wojskowy w Rzymie) sporządziliśmy listę nazwisk (według naszej aktualnej wiedzy) i umieściliśmy ją w internecie. Lista ta jest stale aktualizowana i poprawiana.

**Ce au în comun aceste nume: Chosbel Adler, Friedrich Dorfmayr, István Fekete, Gavor Dujaković, Marton Hornyak, Mijat Kuzmaši Karol Meřička?**

Au multe în comun! Toți au venit din diferite regiuni ale Europei, din statele europene care înainte de Primul Război Mondial au făcut parte din Imperiul Habsburgic. Cu toții au luptat în uniformele armatei austro-ungare pe frontul italian, au devenit prizonieri de război și nu s-au mai întors acasă.

În cripta bisericii Santa Maria dell'Anima din Roma sunt înmormântați 450 de soldați inclusiv cei menționați mai sus. Cu toate acestea, doar o treime au fost identificate până în prezent. Acești soldați, dintre care majoritatea sunt încă necunoscuți provin din toate părțile monarhiei habsburgice, din est, Galia, Bucovina și Ungaria sau din partea de vest, Vorarlberg și Tirol, din nord, din Boemia și Silezia, în sud, Bosnia-Herțegovina și Dalmatia.

Cu prilejul împlinirii a 85 de ani de existență a criptei bisericii mai sus amintite, am început să cercetăm istoria și povestea acestor soldați, săexplorăm experiența lor de pe front, experiența lor de viață în lagărele de prizonieri din centrul Italiei și Sardinia. Intenția noastră este de a edita o carte comemorativă, care le va da din nou un chip acestor soldați necunoscuți.

Pe de o parte, suntem în căutarea unor urmași care își caută antecesorii, locurile unde se află strămoșii lor sau căutăm ajutor în identificarea numelor rămase.

Vă rugăm să ne ajutați și să împărtășiți și transmiteți link-ul mai departe!

Noi, liderii de proiect Priv. Doz. Dr. Tamara Scheer (Universitatea din Viena), Nikolaus Rottenberger (atașatul militar al armatei austriece la Roma) am întocmit o listă de nume accesibilă la link-ul de mai jos. Această listă este actualizată și corectată în mod constant.

Имајумноготогазаједничког! Свидолазеизместакојаседанасналазе у оквиру неколико европских држава, али су током Првог светског рата још у век припадала Хабсбуршкој монархији. Сви су се борили у униформи Аустроугарске на Италијанском фронту, били су заробљени и никада се нису вратили кући.

Укупно 450 војника, укључујући и горепоменуте, сахрањено је у крипти цркве Санта Марија дел Анима (Santa Maria dell'Anima) у Риму. Међутим, досадаје идентификована је само трећина. Овивојници, углавном још у веку непознати, потичу из разних делова Хабсбуршке монархије, од Галиције, Буковине и Мађарске на истоку, до Форарлберга и Тирола на западу, од Чешке и Шлезије на северу, до Босне и Херцеговине и Далмације на југу.

Поводом 85-годишњице овекрипте, ми обрађујемо биографије ових војника, истражујемо њихова и хуманистичка стварност на фронту, њихов живот у логорима у централној Италији и на Сардинији. На основу истраживања и пластичног правим спомен-књиге, која ће се овим непознатим војницима дати поновни лик.

Стога је један део нашег пројекта о кренутку потомцима који су у потрази за својим прецима, а који би нам могли помоћи да идентификујемо преостале имена војника. Помозите нам тако што ћете поделити ову листу или линк и проследити их!

**Kaj skupnegaimajo Chosbel Adler, Friedrich Dorfmayr, István Fekete, Gavor Dujaković, Marton Hornyak, Mijat Kuzma in Karol Meřička?**

Veliko! Vsi izvirajo iz krajev, ki danes ležijo v različnih evropskih državah, vendar so v časoprvesvetovne vojne bili del Habsburške monarhije. Vsi so se v uniformah vstrog srke vojske borili na italijanski fronti, kjer so padli v ujetništvo in seni na kolivo v milih domov. V kripti rimske cerkve Santa Maria dell'Anima je pokopanih 450 vojakov, med njimi vsizgora jomenjeni. Vojaki so izvračeni iz vseh delov Habsburške monarhije, iz Galicije, Bukovine in Ogrske na vzhodu, iz Predalške in Tirolske na zahodu, iz Češke in Šlezije na severu, iz Bosne in Dalmacije na jugu. Zaenkrat je identificiranih le približno trejtina.

Ob 85. obletnici nastanka kripte želim raziskati, kdo je bil v vojne leta v Italiji in na Sardiniji. Na podlagi tega bo nastalo spomin skakniga, ki bo temnezzanim junakom povrnila imena in obraz.

Zatonaeni strani iščemonji hove potomce, kih zanimaju sodi prednikov, in nadruživše, kinam bi lahko pomagali identificirati preostala imena. Prosimo, delite to listo oziroma spletne povezave!

## Čomajúspoločné Chosbel Adler, Friedrich Dorfmayr, István Fekete, Gavor Dujaković, Marton Hornyak, Mijat Kuzma a Karol Meřička?

Majútohospoločnéhomnoho! Všetcipochádzali z miest, ktoré sa aktuálnenachádzajú v rôznych európskych štátach, no ktoré ešte počas Prvej svetovej vojny boli súčasťou habsburskej monarchie. Všetci spomenutí bojovali na talianskom fronte v uniformách Rakúska-Uhorska, boli zajatí a nikdy sa nevrátili domov. V krypte kostola Santa Maria dell' Anima v Ríme sú pochovaní celkom 450 vojaci, medzi nimi i vyšší spomenutí.

Dodnes ich však bol identifikovaná iba tretina. Títo vojaci, z väčšej časti ešte stále neznamení, pochádzali z všetkých častí habsburskej monarchie, od Haliče, Bukoviny a Uhorska na východe po Vorarlbersko a Tirolsko, konazápade, od Čiech a Sliezskaná severo po Bosnu-Hercegovinu a Dalmáciu na juhu. Pri príležitosti 85.

výročia vzniku krypty pracujeme na rekonštrukciu idejného projektu, aby sme mohli študovať ich skúsenosť v prvej línií a život v zajateckých táboroch v strednom Taliansku a Sardínií. Vysledkom je komštúdiabude pamätník, ktorý má vymedziť miesto, kde sú uložení vojaci, ktorí sú v súčasnosti neidentifikovaní. Snažíme sa jednako vypátrať potomkov, ktorí ešte stále nevedia, kde sú pochovaní ich predkovia, a tiež sa pokúšame identifikovať neznámych vojakov. Prosíme Vás o pomoc a o zdieľanie tohto oznamu, prípadne odkazu. My zodpovední za projekt doc. Dr. Tamara Scheer (Viedenská univerzita) a plukovník Nikolaus Rottenberger (rakúsky vojenský yataš v Ríme) smerazákladne si poznatkov zoznam a publikovali ho na internete. Zoznam je neustále aktualizovaný a opravovaný. Odkaz na zoznam:

Що мають між собою спільногоХосбель Адлер, Фрідріх Дорфмайр, Іштван Фекете, Гавор Дуякович, Мартон Горняк, Міят Кузма і Кароль Мержичка?

Багато чого! Всі вони походили з місць, які нині розташовані в кількох європейських державах, а під час Першої світової війни ще належали до Габсбурзької монархії. Всі вони в австро-угорських одностроях воювали на італійському фронті, потрапили в полон і вже ніколи не повернулися додому.

У крипти церкви Санта-Марія-дель-Аніма в Римі покояться загалом 450 вояків, серед них і згадані вище. Ідентифіковано, втім, досі лише третину з них. Ці здебільшого ще невідомі солдати походили з усіх частин Габсбурзької монархії – від Галичини, Буковини й Угорщини на сході до Форарльберга й Тіроля на заході, від Богемії й Сілезії на півночі до Боснії-Герцеговини й Далмації на півдні.

З нагоди 85 річниці існування крипти ми взялися за дослідження історії цих солдатів, вивчення їхнього фронтового досвіду, їхнього життя в тaborах полонених у Центральній Італії і на Сардинії. Результатом має стати книга пам'яті, покликана відновити ідентичність цих невідомих вояків.

А тому, з одного боку, ми зацікавлені у співпраці з нащадками, які шукають місця поховання своїх предків, а з іншого, потребуємо допомоги в ідентифікації решти неідентифікованих імен. Ви вже багато чим нам допоможете, лише поділившися і поширивши список загиблих вояків та посилання з відповідною інформацією.

Ми, керівник проекту прив. доц. д-р Тамара Шеер (Віденський університет) та полковник маг. Нік Роттенбергер (військовий аташе Республіки Австрія в Римі), оприлюднили в інтернеті перелік імен і прізвищ ідентифікованих станом на сьогодні вояків, який перманентно доповнюємо й коригуємо.
